“Our Children, Our Community, Our Commitment”

Daniel Fielding, Superintendent
Chris Lipham, Assistant Superintendent

Josh Atchley, High School Principal
Zach Taylor, Middle School Principal
Darla Jeffery, Elementary Principal

The Project Description would be a complete tear off of the existing damaged roof and total roof replacement.

I was given this information below for a base estimate for repairs for the buildings. The company that provided this was the roofing company that did the emergency roof covering work. We have a building walk scheduled for next Tuesday May 6th with several roof contractors that are part of the OMNIA Cooperative Contractors Program. But the numbers below are basically where the costs are going to fall.

See below pasted budgets

Waldron middle school: Based on scope of mechanical attachment on main roof and adhering built up roof- taper iso on roof sections that require it. \$1,600,000- 1,900,000

Middle School Storm shelter: Full tear off, fully adhered, with full taper. \$225,000-275,000

Elementary School Storm Shelter: Full tear off, fully adhered, with full taper \$250,000-275,000

ALA Building: Based on scope mechanical attachment of roofing system, taper in deck \$275,000-340,000

Thank You,
Daniel Fielding
