NOTE:

-- ARIES implemented a system enhancement in Release 11.1 (August 26, 2024) with the following changes.

(1) Medicaid eligibility for clients who are pregnant will not close or be reduced except in case of death, incarceration, client no longer requesting assistance, or failing residency requirement.

(2) If client reports pregnancy and high income at renewal, client will remain covered until end of post partum period.

(3) When client reports pregnancy, if the current certification ends prior to end of the post-partum period, the certification period is extended until the end of the post-partum period.

--Before the end of the post-partum period, ARIES redetermines eligibility for clients in Pregnant Woman categories. If the client is eligible, ARIES automatically moves them to a new category. If the client is not eligible for any Medicaid category, ARIES closes the Pregnant Woman category at the end of the month when the post-partum period ends with closure reason "Post-partum period ended."
