**** Upon Receipt of your Merchandise ****

Please inspect your delivery carefully. We take great pride and care in the packaging and delivery of your products. In the unfortunate event that something is damaged or has to be returned please call customer service at 800.882.8339. Please save all shipping cartons and packaging until you are sure everything is in good working order. Claims must be reported within 5 days of receiving your delivery. All returns are subject to inspection before a credit is issued and may be assessed a restocking charge. Please return defective items promptly after speaking with customer service to avoid being charged for the replacement item. Custom-manufactured, special orders and used items are not returnable. Thank you for your business.

Dear Dorthy,

It was good to hear from you after all this time. My unit's mailroom rejected your letter because my ADC number was not on the envelope. They refuse to give me your letter because of my number being absent. I did not get to read it. I was happy to hear back from you just to know that you're still with us.

I've enclosed a self-address stamped envelope so you can try again. I want to caution you, your letter to me cannot be longer than ONE sheet of paper long with writing on it's front and back. If you put two or more sheets of writing paper in your letter, my unit will reject it and I'll never see it. That's ADC new rules! They destroy all letters and envelopes sent here after they copy them to give to us. The one sheet limit is a rule to cut down on the cost of copying all the incoming mail. Inmates were getting letters and envelopes soaked in dried chemicals to get high on. The copying stopped that.

I'm sure you've heard about my unit's escaped convict, Grant Hardin. He was housed in 5 barracks for 8 years. I was in 5 barracks for the last 6 years up until two months ago. Grant slept two racks from me. For those 6 years he and I were good friends. We worked out together, read the Bible together, discussed the news events everyday together. We never discussed our crimes with each other. He did tell me about being a sheriff and working as Eureka Springs police, always in confidence though. Ex-cops aren't treated very well in prison. He was a nice guy but he had an anger issue.

ARKANSAS DEPARTMENT OF CORRECTION

STATEMENT OF WITNESS

Name: Jeremy Lute Rank/Status/Number: [REDACTED] Unit: NCU

STATEMENT: I was cleaning the DDR Bathroom when Hardon tells me he needs to use the DDR can I asked what was wrong with the ones in the hallway he said the cross bars on them would stop him from putting what he needed on them so I said OK. That is all I know This all was approx at 10 AM.

I make this statement freely, under no duress, and without undue coercion exerted against me by any correctional officer or official of the Arkansas Department of Correction.

ARKANSAS DEPARTMENT OF CORRECTION

STATEMENT OF WITNESS

Name: A. Tugarden Rank/Status/Number: [REDACTED] Unit: NCL

STATEMENT: Around 2 or 3 Cpt. Delvalle called me and asked me if inmate Hardin had come through laundry. I stated I hadn't seen him. I then checked my back dock. I heard Cpt. Delvalle checking his back dock. Cpt. Delvalle stated that inmate Hardin was supposed to be at work on the kitchen back dock, but he was not there. I told him I was going to search laundry to see if he went in the laundry back door, which he did not. The shift supervisors then entered laundry and began searching for inmate Hardin.

Statement taken over the phone by Sgt. Katie Delgado

I make this statement freely, under no duress, and without undue coercion exerted against me by any correctional officer or official of the Arkansas Department of Correction.

Internal Affairs Final Report

Case #: 25-

Type: Interrogation of inmate G. Hardin ADC# 168541

Incident #: 2025-

Facility: Varner

Allegation: Escape

Date: 6/9/2025 **Time:** 10:00AM

Location of Incident: conference Room

Requesting Authority: Thomas Rowland, IAD Administrator

SUMMARY:

On 6/9/2025 Internal affairs Investigator Derwin Metcalf, Internal affairs Administrator Thomas Rowland, Cabinet Secretary Lindsay Wallace, Director Dexter Payne, and Chief Deputy Director Dale Reed visited with recently escaped inmate Thomas Hardin ADC# 168541 upon his recent capture and placement at the Varner unit (Supermax). Mr. Rowland initiated the interview asking inmate Hardin to take the committee through his process of planning the escape. Inmate Hardin stated that he started planning the escape approximately 6 months prior to the day of the escape. He stated that's when he started preparing the clothing, coloring them with markers (sharpies) that he had accumulated from the kitchen and the laundry. He stated that he would collect them as he seen them laying around because no one was checking the inventory on them. Inmate Hardin stated that he would hide the clothing and other items that he thought he might need during the escape, in the bottom of a trashcan that was on the kitchen back dock in the chemical room. Inmate Hardin stated that no one ever searched the contents of the trash can, or the area that the trash can was located, nor did the kitchen supervisors monitor his actions while he was on the back dock. Inmate Hardin stated that on May 25th, he went to work at approximately 9:00 am and noticed that it was raining. It was then that he made the decision to attempt the escape because he had been told by another inmate in the kitchen that Deputy Warden Bolden had advised them that 1C's would no longer be allowed on the back dock un-supervised, leaving him without access outside of the building. Inmate Hardin stated that he began gathering the supplies that he had stored up for his escape from various areas. Mr. Devalle allowed him access to the back dock again without supervision and he made his move. Inmate Hardin stated that the ladder/boarding that he was pulling on the cart that he had gotten from the kitchen was to be used as the secondary plan, in case he was not able to exit the facility through the sally port gate; his plan was to then use the make-shift ladder to climb over the fence. Inmate Hardin continued explaining that once he had made it through the sally port, simply by saying to the officer in the tower (Cpl. William Walker) open the gate, he walked

across the sallyport road to the ICC garage building and proceeded behind the vehicle that was parked in front of the building and paused to give the impression that he was placing something in the back of the vehicle. Inmate Hardin stated that he then went down behind the ICC garage and crossed the road that goes to the Deputy Warden's house and down the trail into the wooded area. Inmate Hardin stated that at no time did he attempt to approach or enter the Warden or Deputy Warden's residences. Inmate Hardin stated that on the first night of being outside the facility he basically stayed put in one area, dodging the K9 team that had begun the search, and then on the second night he started moving around. Inmate Hardin stated that at one point he laid the laundry bag down that contained his food and other supplies and had to flee the area abruptly because the search team had gotten close, leaving the bag behind. He didn't know what happened to the bag because he was not able to return to retrieve it. From that point on inmate Hardin stated that he depended on eating whatever he could find that he thought he could consume for food; berries, ants, even eating a bird egg that contained an embryo, and drank water from the creek. Upon questioning about his infirmary visits, Inmate Hardin stated that he did report daily to the infirmary to get distilled water for his cpap machine when he was not in the barrack to receive it, because this was what he was instructed to do by the medical staff. He stated that since the changing of the kitchen staff, due to staff leaving, he was able to gain the trust of the new staff, allowing him access to the things he needed. He stated that the new staff in the kitchen were not security minded and did not check or operate by policy as the previous staff. Inmate Hardin stated that no one assisted him in the escape, not staff, nor inmate, nor family member, because he did not divulge his plans to anyone for fear that this would put them in an awkward position once it was made known about his escape. Inmate Hardin stated that while out on the run he did not enter or approach any civilian residences either, he stated that his plan was to elude capture until he felt it was safe to proceed on to the western part of the state on foot. Inmate Hardin stated that he never planned to harm anyone or to involve anyone in achieving his goal of avoiding apprehension. Inmate Hardin stated that since losing the provisions that he had taken with him he was tired and hungry but at no time had he contemplated surrender. Inmate Hardin was asked about contact with any staff or party while on the run and stated that he had no cell phone or contact with anyone since leaving the facility. Inmate Hardin was asked how he heard about the changes that were to be made with the back dock inmates and states he was told by one of the kitchen inmates who heard Mr. Bolden telling the kitchen staff.

ONCE WHEN THERE WAS AN ESCAPE IN ANOTHER ADC PRISON, HE TOLD ME HE WAS TRAINED TO KNOW EXACTLY WHAT THE ADC, LOCAL POLICE, COUNTY SHERIFF, AND FBI RESPONSE WOULD BE HOUR BY HOUR, DAY BY DAY. HE'S VERY INTELLIGENT AND I HONESTLY DON'T THINK HE IS GOING TO GET CAUGHT ANYTIME SOON. HE KNOWS EVERYTHING NOT TO DO. MY PRAYER EVERY NIGHT FOR HIM IS THAT HE HURTS NOBODY AND DOESN'T GET HURT HIMSELF.

Anxious to hear from you.

God Bless!

With Love,

Rick

ARKANSAS DEPARTMENT OF CORRECTION

STATEMENT OF WITNESS

Name: Sgt. K. Drinkard Rank/Status/Number: [REDACTED] Unit: NCU

STATEMENT: ON 3-25-25 at approximately 3:16 PM I
Sgt. Kendall Drinkard was advised by Cpl. William
Walker (West Tower) that an unknown officer
just exited through Gally Port with a flat cart.
Cpl. Walker went on to say that he was unable to locate
the officer and he left the flat cart at the ICC
Garage. FPS Justin DeValle immediately contacted me
and informed me that he was unable to locate Inmate
Hardin, Grant # 168541. I immediately notified Captain
Christopher Brandon and began searching the laundry
back dock area without success. Sgt. Justin Balentine
and I then went through Gally Port and searched the
ICC Garage at which time the flat cart with two
homemade ladders were located. Sgt. Balentine continued
the search and I returned to conduct a roster
count.

I make this statement freely, under no duress, and without undue coercion exerted against me by any correctional officer or official of the Arkansas Department of Correction.

IAD interviews

Interview with Sergeant Kendall Drinkard

On June 19, 2025, Investigator Townsend asked Kendall Drinkard to explain when was the first time he heard about Hardin and what happened. Investigator Townsend asked Sergeant Drinkard to walk her through what he did. Officer Drinkard stated Officer Walker called him and told him he just saw an officer he didn't know walk through the gate pulling a cart with two wooden pallets on it. Sergeant Drinkard stated as soon as he hung up, Delvalle called him and told him he would not locate Hardin anywhere. Sergeant Drinkard said he immediately told Captain Brandon because he was standing close by. Sergeant Drinkard ran to the laundry and searched the area, along with the back dock. Sergeant Drinkard said he and Balentine searched and went out of the ICC garage to see where the cart was and if they could locate anyone. Sergeant Drinkard stated emergency count began where he was in the Lieutenants office. Once emergency count was finished, they realized Hardin was gone. Sergeant Drinkard stated he did not go up front to the command center until after shift because he was helping to serve chow.

Interview with Corporal Andrew Teegarden:

On June 19, 2025, Investigator Townsend asked Corporal Andrew Teegarden to explain when was the first time he heard about Hardin and what happened. Investigator Townsend asked Corporal Teegarden to walk her through what he did. Corporal Teegarden stated the first he heard about Inmate Hardin was when Delvalle the kitchen worker called me, I think it was around 2:30 maybe saying that his inmate wasn't on the back dock and asked if the inmate came through his back door. Corporal Teegarden said no one came through. Corporal Teegarden said he went to the back dock when he heard Delvalle say his kitchen worker was not back there. Corporal Teegarden said he told him to call the tower. Corporal Teegarden said after he continued searching, he saw Sergeant Balentine and informed him an inmate may be missing. Corporal Teegarden stated he saw Delvalle running down the hallway in a panic. Corporal Teegarden said he sent his inmates back to the barracks and then assisted Balentine at ICC garage where they stayed until the dog team showed up. Corporal Teegarden stated he searched Inmate Hardin's property where he discovered the list. Corporal Teegarden stated Walker in the tower called him right before Delvalle stating he had let an

officer out he did not know with a hat, vest and glasses but Teegarden told Walker he did not know who it would be.

Interview with Sergeant Jeremy Cottrell

On June 20, 2025, IAD conducted an interview with Sergeant Jeremy Cottrell. During the interview Investigator Townsend asked Sergeant Cottrell to explain when was the first time he heard about Hardin and what happened. Investigator Townsend asked Sergeant Cottrell to walk her through what he did. Sergeant Cottrell stated, I received a phone call from my house saying that they have an escape, that I need to report to the unit. Investigator Townsend asked if he knew who called him to which he said he could not recall. Sergeant Cottrell stated he arrived at the unit about 4:10 p.m. and went to the Control Center, got into his ERT stuff and reported to the command center. Ms. Townsend asked Sergeant Cottrell if he was aware of anyone contacting State Police and he said he was not aware because that is not something he would have done. Investigator Townsend asked if Warden Hurst were present and he said Mr. Hurst was there but did not know if he were in his office or in the control center because there was too much going on. Sergeant Cottrell said I think he was in his office and then came into the command center. Sergeant Cottrell stated when he got there he pulled out the map and started to do what they were trained so you pull up your google earth map, our physical map as when we get coordinates you map it out on the map, so I got that set up and tried to get people out to the perimeters. Did you feel the communication was good or lacking. Sergeant Cottrell stated the Warden should have been communicating but instead it felt like the North Central Staff were supposed to handle things on their own.

Interview with Sergeant Robert Cross

On June 20, 2025, IAD conducted an interview with Sergeant Robert Cross. During the interview Investigator Townsend asked Sergeant Cross to explain when was the first time he heard about Hardin and what happened. Investigator Townsend asked Sergeant Cross to walk her through what he did. Sergeant Cross stated, "I was sitting at the house fixing to get ready to go out, and Captain Brandon called, and he started asking me how to operate this camera system. Captain Brandon said he wanted to know how to do it quickly. So, I started talking through that, talked to him for a couple minutes on the phone and said Captain, what we got?" Sergeant Cross stated Brandon said, we think we have an inmate that walked out in a security uniform. Sergeant Cross said he immediately started getting ready to start heading to work when Corporal Nathan Williams called him, stating he needed to get there. Sergeant Cross told him he was on the way. Sergeant Cross stated he immediately reported to the Command Center around 4 maybe 4:15 PM and asked Captain Brandon if the escape checklist and emergency escape plan checklist had been started, and he said yes. Sergeant Cross then asked Captain Brandon if the notifications had been completed and Brandon turned and asked Warden Hurst if the notifications had been made to which Hurst said, "yes they had." (see attached statement) Sergeant Cross said the Warden was writing a cover letter from the statements. Sergeant Cross then said he asked Brandon if the local notifications had been completed and to which Brandon said they had not. Sergeant Cross located the local notifications form and had a Corporal assigned to make those calls. Investigator Townsend asked what local notifications would look like for you. Sergeant Cross stated, we've got a form with the local residence phone numbers on it, and it kind of looks just like the external notification. You'll have a local resident's name on there and then you'll have their phone number on there and then you'll have the initial of who contacted and what time they contacted the person. Sergeant Cross stated they used to go through alert express, but they canceled that system, so they just have to physically call them. That just notifies the local people Sergeant Cross also stated he asked if the escape alarm had been sounded and was told it had been sounded. Investigator Townsend asked Sergeant Cross, "Did you

feel the communication during the escape was efficient or lacking. Sergeant Cross said he felt if the Warden should have asked to see the checklist or asked to see what notifications were made."

June 20, 2025, Captain Christopher Brandon

On June 20, 2025, IAD conducted an interview with Sergeant Robert Cross. During the interview Investigator Townsend asked Sergeant Cross to explain when was the first time he heard about Hardin and what happened. Investigator Townsend asked Sergeant Cross to walk her through what he did. Captain Brandon said, "I was standing in the main hallway when Walker called Sergeant Drinkard on phone, Delvalle called for Drinkard Captain Brandon called back on the radio saying, go ahead for Sergeant Drinkard, Delvalle called on said where could they take a call. Brandon said Drinkard took the call when the officer said he let an officer out the fence and Delvalle could not find Hardin. Delvalle asked if this was a drill. Captain Brandon said he called Cooper to see if a drill was being run and was informed no drill was being run, so he told Delvalle no drill. Captain Brandon said he called stop movement and that was why the Warden called him asking why they were running count. Captain Brandon said the Warden called him when he informed the Warden that Walker just called, said he'd let an officer out the back door and now he doesn't know where he is, and Delvalle can't find Hardin. Warden Hurst said go get count and get the camera and confirm. Captain Brandon said he asked the Warden if he was going to call Lively and the Warden said, "I'll get ahold of Lively." Captain Brandon said he confirmed Hardin went out the back gate around 3:40 PM and brought the video he reviewed to the Warden. Captain Brandon said he went to the Warden's office and told Warden Hurst it was confirmed they saw Hardin outside the gates. Captain Brandon stated Warden Hurst told him to open the command post and Warden Hurst told him he was going to start making calls. Captain Brandon stated they opened the command post, he told Nathan Williams to start calling folks but to start with ERT and follow the red book. Captain Brandon told Williams to start with Sergeant Delgado and get ERT on the way. Captain Brandon said he and Cooper began setting up the command center. Captain Brandon stated people started showing up and were assigned. Investigator Townsend asked when Cross showed, did he asked if notifications had been made? Captain Brandon said, "Yes, he did." Investigator Townsend and did you look at Warden Hurst and ask him if notifications had been made? He said I did. Captain Brandon wrote in his statement that he asked Warden Hurst if notifications were made and Warden Hurst said, "yes." (see attached statement) Captain Brandon stated that after Hurst told him notifications had been made, he told Cross and then Cross asked what about what about the local residents, have they been notified and Hurst said no, so Captain Brandon told Cross no. Captain Brandon said they got those number and Williams began to make those calls. Investigator Townsend asked when he was made aware that notifications had not been made, Captain Brandon had said the next day. Captain Brand stated he tried to get Hurst to tell him what notifications were made and have him fill out the sheet, but the Warden told him they would have to do it later. Captain Brandon said he I gave that checklist to Miss Mendez who tried to get with him but never finished and by then Izard County, State Police and everyone was there. Mr. Straughn called and said he was on his way and Randy Shores called and said he was on his way. Captain Brandon stated he just assumed, unfortunately, that everybody had gotten notice.

Interview with Warden Thomas Hurst

On June 24, 2025, IAD conducted an interview with Thomas Hurst. During the interview Investigator Townsend asked Warden Hust to explain when was the first time he heard about Hardin and what happened. Investigator Townsend asked Warden Hurst to walk her through what he did. Warden Hurst stated between 3:15 and 3:30 staff were alerted the inmate may have escaped. Mr. Hurst said he told Captain Brandon to view the video and let him know after the count cleared.

Warden Hurst said once it was confirmed at around 3:40 PM he called Lieutenant Lively, stating I had those times in my phone. Investigator Townsend asked Mr. Hurst to send them to her. Mr. Hurst stated it was on the packet they sent. Mr. Hurst said he told Lively to get out there and get the dogs ready. Mr. Hurst stated, after I seen the video, I called Lieutenant. He was, he was actually the first person I called because I knew he was close, and he could get there. Investigator Townsend asked, do you know about what time that was? Again Ms. Townsend said just shoot those to me. Mr. Hurst stated it was in the packet that we sent in that shows the contact times. Mr. Hurst then stated, actually what we had to do is go back a little bit later, look at my phone to see when everybody was, was contacted, when they were contacting me, stuff like that. Mr. Hurst said he told Lively to get here because they had one out the back gate. Mr. Hurst stated he notified Mrs. Culclager because she was the Duty Director and advised her they had one get out the back gate. Mr. Hurst said he informed Ms. Culclager they were doing an emergency count right now to make sure it's just the one.

Mr. Hurst said he told Captain Brandon to open up the command center and he believed Captain Brandon pulled Sergeant Cooper over there to help. Warden Hurst said he started making phone calls, that Mr. Straughn called him and he started calling people to come in, like his secretary. Mr. Hurst said they tried to stop and figure out what notifications had been made but that he {Warden Hurst} kept getting phone calls. When asked who they were, Mr. Hurst said Captain Brandon and myself. Mr. Hurst said Coach Mendez even tried to help find out about the notifications, but Hurst kept getting calls and Brandon was told they would have to do it later. Ms. Townsend stated, Cross came in and stated as soon as he got there he asked if notifications had been made to which Brandon asked you if notifications had been made and you told him, "Yes." Then when Cross asked if local notifications were made the answer was no. Staff immediately began to make local notifications. Mr. Hurst stated Captain Brandon did ask if notifications had been made but I told him yes, knowing I called the Duty Director. Mr. Hurst said but I did not mean all the notifications had been made. Ms. Townsend asked could that have been where the miscommunication was. Mr. Hurst said "yeah, I believe it is." Mr. Hurst said when Captain Brandon asked him that, his mind was on Hardin. Mr. Hurst said nobody could put it together and after talking with people it had to be miscommunication. Mr. Hurst admitted somehow writing in who had been notified had been dropped. Mr. Hurst stated it was realized that the State Police had not been contacted on the 26th after Captain Brandon was asked to bring Mr. Hurst the sheet. Mr. Hurst said the Colonel of State Police met with them informing them he had not been notified. When would you say would have been the first time that someone realized state police had not been. Warden Hurst stated a policy had been brought to him in the ERT red book which was wrong. Warden Hurst said he contacted Deputy Warden Adam Clark for a current escape list of contacts after being shown a policy that had incorrect information. Mr. Hurst stated on the policy for the notifications it says, first you call Pine Bluff radio room who will notify attachment 1, management team and local law enforcement. Ms. Townsend asked, "It's just a list and did he make that up himself or do you know where?" Mr. Hurst stated, No, Clark. No, no, it's what's in the EPC book. Mr. Hurst stated it is just a generic column list that starts with the Secretary on down. Investigator Townsend asked what is the list that Captain Brandon had with the notifications? What list would you say he had because he was trying to fill it out? Warden Hurst stated it was the external notifications list which had the ADC folks on it including State Police. Mr. Hurst said he went through his phone to see who all was notified and agreed that the list was still lacking.

Mr. Metcalf stated he was confused and asked who set up the command center. Warden Hurst said, Sergeant Cooper started setting everything up, and Captain Brandon was the initial commander. Mr. Metcalf asked, "are they thinking you are in control of everything or are they thinking Captain Brandon will control everything?" Mr. Hurst said, well, at that point, Captain Brandon was. Mr. Metcalf asked when did he switch command over to you? Mr. Hurst said, "I just don't know." Ms.

Townsend asked looking back can you see you should have asked Captain Brandon what notifications were made when he asked if notifications had been made- Mr. Hurst said, "yes."

Ms. Townsend stated Cross said as soon as he showed up, he started asking the questions, that the first thing he asked was have notifications been made. Cross said Captain Brandon asked Hurst who said yes, notifications have been made. Cross then asked have local notifications been made. Captain Brandon asked Hurst, and he said, "no." Brandon put Williams on the local notifications. Hurst explained what all was being done at the unit and how Captain Brandon was watching video, getting others to count, having staff set up at perimeter, having chow run, and having calls made to the local staff. Mr. Metcalf said he was just trying to establish the point of whoever is running the command center that's what they are doing. That person is not running to do other things. They are running the command center, posted there, receiving information provided and they are sending out directions on what is needed to be done.

Kennie Bolden was not present at the unit until approximately 8:15 PM

Major Rogers was off work when Hurst called him to come up to the unit to do the investigation and begin interviewing staff. (see attached statement.)

IAD findings:

- Warden Hurst was present when the command center was opened which made him the ultimate commander.
- Captain Brandon was running command center operations until Sergeant Robert Cross arrived at the unit to help.
- Sergeant Robert Cross arrived at the unit at approximately 4:15 PM and went directly to the command center.
- Sergeant Cross stated he asked Captain Brandon if the escape checklist had been initiated to which Captain Brandon said yes.
- Both Robert Cross and Captain Brandon both stated Warden Hurst was asked if notifications were made to which he responded, "yes."
- Warden Hurst admitted during the IAD inquiry that when Captain Brandon asked him if the notifications had been made, he responded, "Yes."
- Mr. Hurst may have thought he said yes, he made notifications to the Duty Director. However, staff statements and accounts of the conversation do not reflect that Warden Hurst said he called the duty Warden, only that he answered yes when asked if notifications were made.
- Sergeant Cross asked if the local notifications had been made to which Captain Brandon said,
"No" Corporal Nathan Williams was told to immediately make the local notifications.

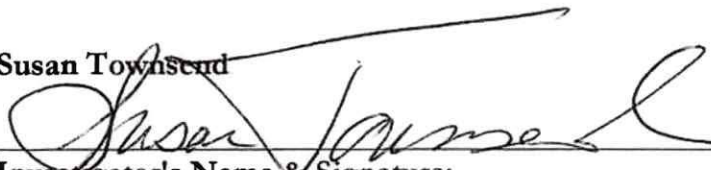

Refer to the following policy for violations.

NCU 9.03.0 Security and Control Letter H. Section 1

Investigator Note:

Mr. Metcalf stated Nathan Williams has a blue print if he had the red book, however it had to be noted that Williams was called off the red book to make the local notifications after contacting staff and that was when Captain Brandon attempted to get with Warden Hurst to see what notifications had been made when he was told it would have to be later, due to him receiving calls. .

INTERVIEW OF SUBJECT

On July 9, 2025, I interviewed Thomas Rowland at the ADC Office in Pine Bluff. Rowland is identified as the ADC Internal Affairs administrator. The below is an interview summary, it is not intended to be a verbatim account and does not memorialize all statements made during the interview. Communications by the parties in the interview were electronically recorded. A copy of the recording will be included in the case file.

Rowland advised that his understanding of the Secretarial Directive regarding notifications is that he would notify State and local law enforcement if there was a death or drugs in a unit. Rowland emphasized that there are a lot of inmate deaths, which requires him to contact the State Police.

Rowland admitted that the directive is confusing because of the fact that it states that the Internal Affairs Administrator will notify State and Local law enforcement regarding criminal activity in the units, which an escape from a unit would qualify. Rowland said that he wishes that the directive was written "a little more clearly."

When asked who is responsible for making the law enforcement notifications at the units, Rowland said that the highest ranking officer at the unit, who would be considered the "Initial Commander," would be charged with the responsibility. Rowland explained that during an incident such as Hardin's escape, the initial commander would be in charge until the Warden of the unit arrives, who would be considered the "Ultimate Commander." Rowland said that the Ultimate Commander should assign responsibilities and give direction to the rest of the staff. Rowland said that due to the fact that Warden Thomas Hurst was present at the NCU when Hardin escaped, he would have been considered the Ultimate Commander immediately until the arrival of his superiors.

Rowland agreed that Captain Christopher Brandon appeared to have too many responsibilities which caused some of the communication failures. Rowland concluded by saying that he believes the policies need to be "tweaked" to be more direct so there is nothing left up to interpretation.

INTERVIEW OF SUBJECT

On July 14, 2025, I interviewed Rand Champion. Champion is identified as the ADC Communications Director. The below is an interview summary, it is not intended to be a verbatim account and does not memorialize all statements made during the interview.

Champion explained that during the process of preparing a media notification during an event such as an escape, he generally "runs it by" the Secretary's Office, Governor's Office, Board of Corrections, and Cindy Murphy (Arkansas State Police). Champion said that during Grant Hardin's escape, the media release was approved around 5:15 PM but the ADC Dog team was about to search a shed and Secretary Lindsay Wallace wanted confirmation that the shed had been cleared before sending the media release. The release was subsequently sent at 5:39 PM, after it was determined Hardin was not in the shed.

INTERVIEW OF WITNESS

On July 14, 2025, at approximately 11:10 AM, I, Special Agent Mike McNeill, conducted an interview with North Central Unit (NCU) Correctional Lieutenant Hayden Grady. It should be noted that during a prior interview conducted on June 12, 2025, Mr. Grady held the rank of Captain and was serving in the capacity of Food Preparation Manager (FPM) for the North Central Unit. Although his title has since changed to Correctional Lieutenant, Mr. Grady confirmed that his responsibilities remain unchanged. He continues to oversee the daily operations of the NCU kitchen and directly supervises the four (4) assigned kitchen supervisors.

This interview was audio recorded for documentation purposes. The following summary is not a verbatim transcript but accurately reflects the key points and material statements made during the interview:

Lt. Grady advised that he was assigned to the NCU kitchen approximately one month prior to the escape of Inmate Grant Hardin. He clarified that this assignment was new to him and that he had no prior work history in the NCU kitchen prior to this reassignment. Lt. Grady has been employed at the NCU as correctional staff since 2017.

Regarding operational security and contraband searches, Lt. Grady stated that it was the responsibility of former Kitchen Supervisor Justin Delvalle to conduct routine searches of the chemical room, as this area falls under the jurisdiction of the kitchen. However, Lt. Grady also emphasized that all four (4) kitchen supervisors are equally responsible for conducting searches of the chemical room for contraband, as part of their supervisory duties.

Further, as the current Correctional Lieutenant overseeing the kitchen operation, Lt. Grady acknowledged that he shares accountability for ensuring the safety and security of the kitchen, including the chemical room, and that he too bears responsibility for identifying and eliminating contraband in that area.

This information is particularly significant given Inmate Hardin's post-capture statement indicating that he stored escape-related items in a trash can located in the chemical room for an extended period without detection. The prolonged concealment of such items indicates a failure in security protocol, including repeated lapses in required area searches by multiple staff members, not solely by Supervisor Delvalle.

When questioned about statements reportedly made by Warden Thomas Hurst indicating that Supervisor Delvalle had signed a document acknowledging that inmates are not permitted to be on the back dock without supervision, Lt. Grady stated: *"I don't know, I don't want to say anything that's going to get me in trouble so I'd say no comment on that."*

Lt. Grady also stated that, to his knowledge, the post orders which allow inmates to be unsupervised on the back dock so long as they are cleaning has not been formally changed. While those post orders have not yet been amended, Lt. Grady believes revisions are currently in progress.

Case #: ASP-2025-0704	Agent: MCNEILL, MIKE
Report Date: 07/15/2025	ESCAPE

(2) INTERVIEW OF NCU STAFF HAYDEN GRADY

The interview with Lt. Grady confirms that responsibility for securing the chemical room—including the detection of contraband—was not solely assigned to Supervisor Delvalle. Rather, it was a collective duty shared among all four kitchen supervisors and overseen by Lt. Grady in his managerial capacity.

The interview with Hayden Grady concluded at approximately 11:58 AM. The interview will be made a part of the investigative file.

INTERVIEW OF WITNESS

On July 14, 2025, at approximately 11:50 AM, I conducted an interview with North Central Unit Deputy Warden Kennie Bolden. The interview was audio recorded for documentation purposes.

Below is a summarized version of the interview, not intended to be a verbatim account but capturing the key points of the interview:

Deputy Warden Kennie Bolden confirmed that approximately one month prior to the escape of Inmate Grant Hardin, he issued a verbal directive to North Central Unit (NCU) kitchen staff instructing them not to allow inmates on the back dock without direct staff supervision. This verbal directive directly contradicted the then-standing Post Orders, which allowed inmates to be present on the back dock without supervision while performing cleaning duties.

When asked how long it typically takes for a formal written policy or revised Post Order to be issued following a verbal directive that contradicts existing policy, Deputy Warden Bolden stated, in part "It shouldn't take long." "Up to two weeks or longer." "It takes about two weeks sometimes, it might take longer."

Deputy Warden Bolden was then specifically asked whether the NCU Post Orders/Policy had been formally updated prohibiting unsupervised inmates on the back dock. Deputy Warden Bolden replied, "I don't know if the Warden has signed off on that new policy yet or not." He then stated he believed the Post Orders had been revised, at which point I requested a copy of the modified policy for review.

Following the conclusion of the interview, Deputy Warden Bolden attempted to locate the updated Post Orders but ultimately confirmed that the Post Orders had still not been revised, despite the fact that a clear policy contradiction had existed for over two months.

The interview with Deputy Warden Kennie Bolden concluded at approximately 12:00 PM. The interview will be made a part of the investigative file.

ARKANSAS STATE POLICE

Criminal Investigation Division

INTERVIEW OF SUBJECT

On July 16, 2025, at approximately 11:45 AM, I conducted an audio-recorded interview with North Central Unit (NCU) Warden Thomas Hurst as part of the ongoing investigation into the escape of Inmate Grant Hardin. The interview took place at the North Central Unit.

The following is a summarized account of the key points discussed during the interview and is not intended to serve as a verbatim transcript.

Warden Hurst confirmed that approximately one month prior to Inmate Hardin's escape, he and Deputy Warden Kennie Bolden observed that inmates were present on the kitchen back dock without staff supervision. Warden Hurst considered this to be a potential security concern, and at that time, a verbal directive was issued to kitchen staff instructing them not to allow inmates on the back dock unless directly supervised by staff. This verbal directive, however, directly contradicted the standing NCU Post Orders, which permitted inmates to be present on the back dock unsupervised, provided they were cleaning.

When asked whether NCU policy contains any provisions addressing how staff should respond when a verbal directive from a supervisor contradicts established written policy, Warden Hurst stated that "staff should follow the last directive given." He further explained that when an issue with policy is identified, the standard procedure involves convening a policy review meeting, including kitchen staff, the kitchen captain, the deputy warden, the ACA policy coordinator, and himself. Following that discussion, any proposed revisions are reviewed and approved by him.

Warden Hurst was asked to explain why, despite the verbal directive being issued nearly a month before the escape, no formal effort had been made to initiate the policy revision process. He responded by stating that once the escape occurred, he anticipated an investigation would follow and did not want to change any policies until the investigation had concluded. When reminded that the directive had been given well in advance of the escape and that there was no indication that any policy review process had been initiated during that intervening time, Warden Hurst responded, "It shouldn't take that long, I mean it shouldn't take that long, it shouldn't take a month."

Of particular note, on July 10, 2025, Warden Hurst provided testimony before the Arkansas Legislative Council – Charitable, Penal & Correctional Institutions Subcommittee. During that testimony, at time stamp 4:50:47, Representative Rose asked Warden Hurst whether any immediate changes to policy, procedure, or staffing had occurred following the escape. Warden Hurst responded in part, "We have changed the policy to make it clearer for the kitchen." When questioned about this statement during the July 16 interview, Warden Hurst initially said, "I don't remember saying that, but if you say I did, I'm sure I did." He attempted to clarify by stating that new verbal directives had been issued to staff since the escape but ultimately conceded that no actual written policy changes had been made.

Warden Hurst was also asked about prior statements in which he asserted that Kitchen Supervisor Justin Delvalle signed a document explicitly prohibiting inmates from being unsupervised on the back dock. Upon further questioning, Warden Hurst admitted that the document he was referring to was a May 13, 2025, staff meeting report authored by Food Service Manager Hayden Grady. According to Hurst, the bullet point in that report stating, "Back dock is to stay

Case #: ASP-2025-0704	Agent: MCNEILL, MIKE
Report Date: 07/17/2025	ESCAPE

INTERVIEW OF WARDEN THOMAS HURST REGARDING NCU POLICY

locked when supervisor is not present,” was discussed in the meeting and interpreted to include inmate supervision requirements. However, it is important to note that the document itself contains no language addressing inmate supervision. When asked whether referencing this document in that context might be misleading, Warden Hurst stated he did not believe it was misleading but acknowledged it could be viewed as a “misstatement.”

It should be noted that Warden Hurst failed to disclose to the Subcommittee that the NCU had a long-standing, signed policy in place stating, “The only inmate allowed outside unsupervised is the one assigned to clean the dock.” This policy, approved and signed by Warden Hurst himself in April 2025. When asked why this existing policy was not brought to the attention of the Subcommittee, Hurst admitted that such information would have been “helpful” to provide but stated that, since he was not asked that specific question, he did not offer the information. He added that in hindsight, he wishes he had made the policy known.

Finally, Warden Hurst acknowledged that if the statements made by Inmate Hardin—specifically that he had stored escape-related items in the kitchen chemical room for a period of approximately two years—are accurate, then every kitchen supervisor over that period had, in some manner, failed in their responsibilities concerning the safety and security of the facility.

The interview with NCU Warden Thomas Hurst concluded at approximately 12:20 PM. The interview will be made a part of the investigative file.

SPECIAL AGENT NOTES

I, Special Agent Mike McNeill, sent an email to Marquis Software Project Manager, Sam Orr, seeking to gather information regarding the electronic Offender Management Information System (eOMIS) and to assess its potential utility to the Arkansas Department of Corrections (ADC) in the event of an inmate escape.

Preliminary research indicates that eOMIS offers a broad range of capabilities—reportedly including at least 44 different modules—that may provide value in managing and tracking offender-related data. Based on information available through open sources, the eOMIS platform could serve as a critical tool in post-escape investigative and operational efforts.

The noted email will be made a part of the investigative file.

To: Mike McNeill
Subject: Re: Escape inquiry

Good morning, Agent McNeill.

Thank you for reaching out! All of the information you shared about eOMIS is correct. The system includes 44 integrated modules that are used to manage inmate data from intake through post-release. At present, ADC is actively utilizing all 44 modules.

I'd be happy to join a call to answer any questions. If it's alright, I'd also like to include two of my colleagues who can provide more detailed and targeted insights.

I'll review everyone's availability and follow up with a few potential times. It will likely be next week before we can coordinate schedules—please let me know if that timing works for you.

Subject: Escape inquiry

Mr. Orr,

The Arkansas State Police is currently conducting an investigation into the escape of Inmate Grant Hardin, which occurred at the North Central Unit on May 25, 2025. As part of this investigation, I am seeking to gather information regarding the electronic Offender Management Information System (eOMIS) and to assess its potential utility to the Arkansas Department of Corrections (ADC) in the event of an inmate escape.

Preliminary research indicates that eOMIS offers a broad range of capabilities—reportedly including at least 44 different modules—that may provide substantial value in managing and tracking offender-related data. Based on information available through open sources, it appears that the platform could serve as a critical tool in post-escape investigative and operational efforts.

The objective is to determine whether broader or more effective utilization of eOMIS could enhance ADC's ability to respond to and investigate escape incidents.

I would appreciate the opportunity to speak with you regarding these matters at your earliest convenience.

It would be helpful if you would take a look at the following information and confirm whether or not it is accurate?

The Role of eOMIS in Supporting ADC During an Inmate Escape

The electronic Offender Management Information System (eOMIS) is a mission-critical tool for the Arkansas Department of Corrections (ADC) that consolidates and manages offender data in a secure, real-time digital platform. In the event of an inmate escape, eOMIS can serve as an operational backbone, supporting both immediate response and long-term investigative needs. The system's capabilities contribute across several domains, including containment, investigation, coordination, and post-incident review.

1. Real-Time Access to Offender Data

eOMIS provides immediate access to comprehensive inmate records, including:

- Full name and known aliases
- Recent photographs
- Physical descriptors (e.g., height, weight, scars, tattoos)
- Security classification and housing history
- Disciplinary history
- Known associates and STG (Security Threat Group) affiliations
- Work assignments and movement history

This centralized database enables responding personnel—such as correctional staff, law enforcement, and investigators—to quickly retrieve actionable intelligence that can aid in identifying the escapee, assessing potential threats, and guiding apprehension strategies.

2. Incident Reporting and Investigative Documentation

During and after an escape, eOMIS supports the electronic documentation of:

- Escape incident reports
- Witness and staff interviews
- Administrative and criminal investigation notes
- Chain-of-custody records for evidence
- Timeline of the escapee's last known activities

This ensures secure, time-stamped, and auditable records that support transparency, legal proceedings, and internal accountability.

3. Interagency Coordination and Alerts

eOMIS facilitates communication between ADC and external agencies by:

- Generating system-based alerts and notifications that can be shared with state or federal law enforcement (e.g., through NCIC entries or BOLOs)
- Providing data needed to support the issuance of escape warrants or detainers
- Integrating or exporting inmate data to public alert systems, such as Arkansas Crime Information Center (ACIC) bulletins or the Department of Emergency Management for broader public safety notifications

4. Movement Tracking and Geospatial Analysis

eOMIS can interface with facility security and surveillance systems to assist in tracking inmate movement prior to the escape. Additionally:

- The system's integration with geospatial mapping tools can provide facility schematics, known blind spots, and identify routes based on the escapee's housing or work assignment location.
- Movement logs, proximity to restricted areas, or patterns of behavior may be analyzed to identify procedural failures or escape opportunities.

5. Classification and Risk Assessment Validation

eOMIS can be used to validate whether the escapee's classification level and privileges (e.g., kitchen work, outdoor access) were appropriate. This can aid in:

- Determining whether classification policies were followed
- Identifying deviations from supervision protocols
- Supporting administrative disciplinary actions for staff negligence, if warranted

6. Post-Incident Audit and Preventative Analysis

Following an escape, ADC may initiate a full administrative review. eOMIS contributes by:

- Compiling comprehensive data logs and audit trails
- Identifying procedural gaps (e.g., miscommunication between shifts, outdated post orders)
- Supporting trend analysis across similar incidents statewide
- Informing policy revisions or training enhancements

Conclusion

In summary, **eOMIS serves as a centralized digital infrastructure** that enhances the Arkansas Department of Corrections' ability to **respond effectively to inmate escapes, coordinate with external agencies, and conduct thorough after-action reviews.** Its utility spans across **incident response, legal compliance, public safety, and institutional accountability,** making it an indispensable asset in both operational and investigative phases of escape incidents.

Please feel free to call at any time.

Thanks, Mike

Narrative begins on the following page.

ARKANSAS STATE POLICE

Criminal Investigation Division

INTERVIEW OF SUBJECT

On July 8, 2025, at approximately 11:50 AM, I conducted an audio-recorded interview with Sergeant Shanetta Brown at the Randall L. Williams Correctional Facility located in Pine Bluff, Arkansas. This interview was conducted as part of the ongoing investigation into the May 25, 2025, escape of Inmate Grant Hardin from the North Central Unit.

The following summary captures the primary details of the interview and is not intended to serve as a verbatim transcript:

Sergeant Shanetta Brown is the highest-ranking officer assigned to the Arkansas Department of Corrections (ADC) Pine Bluff Radio Room. She advised that she has been employed with the ADC for over twenty-four years and has served in the rank of Sergeant since 2016. In her current capacity, Sgt. Brown supervises the operations of the ADC Radio Room and is responsible for overseeing critical communications during incidents such as inmate escapes.

Sgt. Brown stated that during her time assigned to the Radio Room, she has experienced approximately two or three inmate escapes while on duty. She recalled that on May 25, 2025, ADC Director Dexter Payne contacted her to advise that Inmate Grant Hardin had escaped from the North Central Unit. Director Payne informed her that Hardin was last seen wearing dark clothing and further instructed her to prepare and submit a BOLO, Temporary Warrant, and External Warrant entries. Director Payne also stated that additional details would be forthcoming from a representative at the North Central Unit. Sgt. Brown indicated that she received that follow-up call immediately after ending her conversation with Director Payne.

Upon receipt of the required information, Sgt. Brown accessed the eOMIS platform to locate Inmate Hardin's profile and obtain updated inmate data necessary to complete the required entries. She described eOMIS as an internal database containing comprehensive records for all inmates incarcerated within the Arkansas Department of Corrections.

Despite being the supervising authority over the Radio Room and responsible for ensuring the accuracy and integrity of time-sensitive communications, Sgt. Brown made multiple errors during the execution of these critical tasks. Specifically, in the BOLO that she submitted, Sgt. Brown inaccurately described Inmate Hardin as having gray hair. In reality, Hardin was bald at the time of his escape, and his most recent eOMIS photograph clearly depicted him as bald. Sgt. Brown acknowledged this was a mistake and admitted that her description should have reflected the correct appearance based on Hardin's most recent photo.

Sgt. Brown also failed to recognize and correct a formatting error in the BOLO submission. The BOLO was ultimately rejected by the Arkansas Crime Information Center (ACIC) due to incorrect formatting. Although ACIC's system is designed to automatically generate and return an error message to the sender when a formatting issue is detected, Sgt. Brown claimed she never received such a notification. Nevertheless, a copy of the terminal message from ACIC confirming that the BOLO transmission had failed will be attached to this report. Sgt. Brown maintained that she was unaware the BOLO had failed and did not take further action to verify its successful dissemination.

In addition, Sgt. Brown advised that upon confirmation of the escape, she processed an "External Movement" in eOMIS, which transferred Inmate Hardin's designation from his housing unit to "Escape" status. When asked whether

Case #: ASP-2025-0704	Agent: MCNEILL, MIKE
Report Date: 07/17/2025	ESCAPE

(2) INTERVIEW SGT. SHANETTA BROWN PINE BLUFF RADIO ROOM

she believed eOMIS could serve any further operational benefit during an escape incident beyond this basic classification change, Sgt. Brown replied, “No, if it does I have no knowledge of it.”

While Sgt. Brown has extensive experience and holds a supervisory role within the ADC Radio Room, the interview revealed several lapses in procedure during a critical incident. Her misidentification of Inmate Hardin's physical description, combined with the failure to detect a formatting error that caused the BOLO to be rejected is significant due to the urgency and importance of accurate communication during an inmate escape. Although Sgt. Brown asserted she did not receive the ACIC error message, system records indicate the message was returned as designed.

The interview concluded at approximately 12:15 PM and will be included in the investigative case file.

ARKANSAS STATE POLICE

Criminal Investigation Division

SPECIAL AGENT NOTES

Inmates housed at the North Central Unit (NCU) have access to a tablet program administered through Securus, which offers a range of controlled applications, including phone calls, eMessaging, games, music, college coursework, eBooks, movies, religious content, and job search resources. Importantly, these tablets do not allow internet access and are significantly limited in their capabilities. Based on the current investigation, there is no indication that these devices provide any operational advantage to an inmate attempting to plan or carry out an escape. All calls and messaging are monitored by NCU staff in real time.

Inmate Grant Hardin was issued one of these tablets; however, it was not in his possession at the time of his escape. The device was subsequently located among his personal property and subjected to a forensic search by Arkansas State Police investigators. The review of the device did not uncover any data or communications that would indicate the tablet was used in the planning, facilitation, or execution of Hardin's escape. Accordingly, there is no evidence to suggest the tablet played any role in the incident under investigation.

NCU provided a call log which shows investigators who inmate Hardin communicated with by phone from January 3, 2025, through May 24, 2025. There were also twenty-eight (28) phone call audio recordings provided to investigators regarding Hardin's phone calls. NCU also provided emails from Hardin's account from November 26, 2024, through May 24, 2025. A total of twenty-five (25) emails were provided to investigators. It should be noted that there were no phone calls or emails that appear to be linked to Hardin's escape. The noted phone call log and emails will be made a part of this investigative file.

Case #: ASP-2025-0704	Agent: MCNEILL, MIKE
Report Date: 07/18/2025	ESCAPE

INVESTIGATIVE SUPPLEMENT ASP-2025-0704/42

Report Date: 07/18/2025

Primary Information

Description:	SPECIAL AGENT NOTES REGARDING PHYSICAL EVIDENCE
Dissemination Code:	SYSTEM WIDE ACCESS
Reporting LEO:	MCNEILL, MIKE (SPECIAL INVESTIGATIONS / ARKANSAS STATE POLICE)
Report Status:	Approved
Report Status Date:	07/25/2025
Approved By:	RHOADS, STACIE (ARKANSAS STATE POLICE)

ARKANSAS STATE POLICE

Criminal Investigation Division

SPECIAL AGENT NOTES

On June 11, 2025, at approximately 10:45 AM, I, Special Agent Mike McNeill, responded to the North Central Unit (NCU) of the Arkansas Department of Corrections, located in Calico Rock, Arkansas, to conduct an examination of garments and other physical evidence associated with the escape and subsequent capture of Inmate Grant Hardin. These items were collected and preserved by NCU staff as part of their internal investigation.

Sgt. Kevin Wyatt, identified as the designated evidence custodian for NCU, transported the evidence from a secured location within the NCU to an administrative office near the main entrance of the facility. This location served as the designated space for the examination and photographic documentation of the evidence. It is believed that the clothing worn by Hardin at the time of his capture included garments used during his escape.

During my examination, I observed the following: (1) Fabricated police badge, created by Hardin from the metal lid of an apparent soup can, One (1) state-issued inmate uniform pant, dyed black. The identification patch typically affixed to the upper left leg was removed, rendering it impossible to determine the last inmate to whom the garment was issued. Two (2) T-shirts that would have been originally white, both dyed black. One of these T-shirts had been modified with the word "POLICE" stenciled across the back. Such T-shirts are available for purchase through the prison commissary, suggesting they may have been acquired through legitimate channels before being altered. One (1) pair of state-issued boxers also dyed black. The black ballcap worn by Hardin during his escape and capture was not among the items provided and remains unaccounted for. The black short-sleeve garment or possible vest with a white banner displayed across the upper back—visible in surveillance footage of the escape—was also not among the recovered items.

Additional notable items of evidence include: Eight (8) black Sharpie markers, One (1) white Sharpie marker, Hardin's inmate identification card with attached locker key, A fabricated NCU employee identification card, resembling those used by prison staff.

The two (2) wooden pallets, which visually resembled a makeshift ladder and were observed on video being transported by Inmate Hardin on a metal cart from the kitchen back dock area to a location near the ICC garage, were not constructed or fabricated by Hardin. These pallets were items that had been in operational use at the North Central Unit (NCU) for an extended period of time prior to the escape.

Specifically, the two elongated wooden pallets were utilized for the purpose of storing and stabilizing 55-gallon chemical barrels within the designated chemical room. The use of pallets in this context served a dual purpose: (1) to elevate the barrels off the concrete floor in accordance with common safety practices, which help reduce corrosion, moisture damage, and chemical degradation; and (2) to maximize floor space and improve handling efficiency by aligning the barrels along the interior walls of the room in a more organized and accessible manner. All items described above were photographed during the examination. The complete photograph log has been compiled and will be included in the investigative file.
