Procurement Unit Requesting the RFQ

Requesting Department: 0311 - Disability Determination

Requesting Division: n/a Purchasing Contact: Jeff Stearns

Phone Number: 501-682-7627 Email: Jeffrey.stearns@ssa.gov

General Information

Description of Service/Commodity: Medical Consultant for disability case processing.

Total Projected Cost: \$1,100,000

Start Date of Resulting Contract: 12/1/2025

Expiration Date of Resulting Contract: 6/30/2027

Why is an RFQ the most suitable method of procurement?

Medical Consultant must have a strong medical background and ability to apply that knowledge to Social Security Administration standards.

Why should cost not be considered in the procurement?

While cost is always an element to our medical consultant contracts, we believe quality is the paramount concern. The Arkansas DDS continues to be a national leader in case cost.

How will the cost of the contract be controlled?

Chief medical consultants are always monitoring production and quality of each of the agency's contract medical consultants. If a medical consultant is not performing at an acceptable level, this person can be counseled and/or trained on ways to improve their performance. Chief medical consultants also have the authority to move/remove work from contractors that are not achieving necessary efficiency or quality standards.

Provide additional details as needed.

Finding qualified medical contractors can be difficult. For many years we have kept a standing ad on our website for doctors to contact us about work. If/when we have need our agency looks through that list of qualified vendors and chooses one or more (depending on need) to engage in discussions with and to potentially offer a contract.

If this request to conduct an RFQ also includes a request to award to multiple contractors, please note that a multiple award request must include a rationale and basis for the multiple award contract and the number of contractors required to fulfill the need (see Arkansas Code Annotated § 19-11-262).

If a multiple award is desired, provide the rationale and basis for the multiple award contract.

Based on current disability workload and training capacity, the agency has determined that one additional doctor would be the ideal number at this time to enter into the new biennium. This increase is based upon a recent departure of a high producing medical consultant.

For a multiple award request, indicate the number of contractors required to fulfill the need.
